

Locking SCUBA Console Retractor - Brass Bolt

Brand: GearKeeper

Description

Locking SCUBA Console Retractor - Brass Bolt

Brass Bolt

Keeps Console Close at Hand, Easy to Use

Super Force models are necessary for the retractor to overcome the stiffness of the high-pressure hose.

This large locking versions allows you to tether your console at your hip, stomach or chest area. Keeps you streamlined and your console is always right where you need it.

- Built to Last: Designed to survive extended salt water and chlorine exposure
- Sand and debris are flushed from unit when operated in water
- New Quick Connect-II System adds convenience and flexibility

Care and Storage Instructions

- After use, wash in fresh water and allow to dry in a well ventilated area out of direct sunlight
- Store in a well ventilated dry area away from direct sunlight
