

Fire / Rescue

“Provide quality products, competitively priced and delivered on time with total customer satisfaction. A simple promise in a complex world.”

Gear Keeper Retractors are built by Hammerhead Industries, Inc., the world’s leading manufacturer of personal tethering equipment including retracting lanyards for tools, gear and instruments. Covered by numerous patents, Gear Keeper products are precision-made systems that keep gear and instruments safe, secure and close at hand.

There is nothing random about our Quality. Our Guarantee.

All of the company’s products are built “Hammerhead Tough” in the USA. Hammerhead Industries warrants its products against manufacturing defects in workmanship and materials. If you are not satisfied with the quality or performance of any Hammerhead product, we will replace it or refund your money within 30 days after purchase through your original dealer or retailer. The warranty is void if the product has been abused beyond normal wear and tear or used for purposes other than intended.

To find a dealer near you or for more information about any Gear Keeper products, contact Customer Service.

Retractable Gear Attachment Systems

First engineered for SCUBA diving, the Gear Keeper is a rugged, retractable gear attachment system, designed to utilize and protect gear in severe environments with maximum break strength and durability.

The Gear Keeper is at the core of an extensive product line that boasts an impressive array of benefits and features: a patented flushing system that clears sand and debris from the unit, is salt-water proof, and will withstand high-temperature environments; a patented Q/C Connector System that provides quick and easy connection/disconnection of gear.

The RT2 Series features 60# break-strength, stainless steel nylon coated cable and a high impact housing. The RT3 Series features 80# break strength, Spectra/Nylon line, and a high-impact housing. The New RT4 Series features 60# break-strength, extremely durable Spectra/Nylon line and a new Mid-Force which bridges the gap between the RT2 and RT3 Series for any gear you need to keep handy and can’t afford to lose (Lapel Mics, Flashlights, Knives/Seat-Belt Cutters...).

Speciality product packages combine the proper retraction force, attachment accessories and mounting options for specific applications or you can choose whatever force, mounting option, end type to create your own combination.

The original Mic Keeper® revolutionized communications for firefighters by making the lapel mic easy to use while avoiding the constant nuisance of having your mic drag on the ground or be inaccessible.

The innovative Add-A-Clip® product line gives the firefighter the ability to easily customize the turnout gear attachment points, eliminating the need for special sewn-on alterations.

Grab your gear, use it, let it go — it retracts back every time!

Gear Keeper makes whatever you’re doing easier while preventing loss or damage to your valuable gear.

■ Threaded Stud Mount

Also available in:

Various Snap Clip Options

■ High-Impact/High Temp Case

■ Multi-Force Options

■ Patented Flushing System Salt Water Proof

■ Spectra/Nylon Line

■ Quick Connect-II (Q/C-II) w/ Pivot-Ball Connection

■ Heavy Duty Snap Clip Mount
Also Available in Threaded Stud Mount

■ Add-A-Clip®

Stainless Steel Threaded Stud penetrates webbing or material (tabs, flaps, pockets), screws into Add-A-Clip housing for a secure mount. Available in multiple configurations

▶ Fire Mic Keeper® *Keeps mic close at hand and easy to use!*

Buy it for its convenience...own it for your safety!

Mic is always secured right where you need it
 No more dangling mics at your feet
 If entrapped, your lifeline is accessible
 Grab you mic, use it, let it go... It retracts back

- ▶ **Threaded Stud Mount**
 RT2-4022
 Force: 12 oz. Extension: 20"

Stainless Steel Threaded Stud: The stud penetrates straps or pockets, screws into back of Gear Keeper Retractor. This allows the retractor to be mounted just about anywhere as long as the vapor barrier is not penetrated.

▶ General Gear Retractors/Tethers *Get easy control of your gear—never lose it*

4 Mounting Options / 3 Force Options for all your gear attachment needs

Multiple forces

Disconnectable gear end

High, 60-pound break strength

- ▶ **Snap Clip Mount**
